DETAILED ACTION

Claims 7-9, 13 and 18-22 are pending in the application.

This action is in response to applicants' amendment dated March 27, 2003. Claims 7 and 8 were amended.

Response to Arguments

Applicant's arguments filed March 27, 2003 have been fully considered with the following effect:

1. The applicant's amendments are sufficient to overcome the objections to the specification in the last office action, which are hereby **withdrawn**.
2. The applicant's amendments are sufficient to overcome the 35 U.S.C. § 112, first paragraph rejection of the last office action, which is hereby **withdrawn**.
3. The applicant's amendments are sufficient to overcome the 35 U.S.C. § 112, second paragraph rejection of the last office action, which is hereby **withdrawn**.

In view of the amendment dated March 27, 2003, the following new grounds of rejection apply:

Specification

4. The disclosure is objected to because of the following informalities:

Art Unit: 1624

- a) The amendment to the specification spanning page 4, line 10 to page 6, line 11 contains a typographical error, i.e. the definition of T where T is $-(CH_2)_w-$. The variable w is defined as 1-4 in some instances and 0-4 in others. See the last line on page 5 of the amendment.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 7, 9, 13 and 18-22 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The amendment to formula B where the ring is a piperidine ring is not described in the specification.

Applicant is required to cancel the new matter in the reply to this Office action.

Allowable Subject Matter

6. Claim 8 is allowed. None of the prior art of record nor a search in the pertinent art area teaches the species of claim 8.

Art Unit: 1624

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
